DISCREET DESIGN. POWERFUL PERFORMANCE.

Robust all-rounder headset. Ideal for multimedia applications, web and video-conferencing, and designed for unified communications. Delivers outstanding audio quality with natural sounding voice.

DISCREET, PORTABLE DESIGN

- Its modular design gives end users a choice of mono or stereo audio options and wearing styles
- Low profile design is ideal for video conferencing, PC telephony and other multi-media applications
- Durable, portable design easily tucks into travel case, ideal for professionals on-the-go

SIMPLICITY AND OUTSTANDING AUDIO QUALITY

- Answer/end/mute controls simplify call management while inline indicator lights show call or mute status
- Noise-cancelling microphone reduces background noise
- Wideband delivers heightened speech clarity, providing the best possible PC audio quality
- A dynamic EQ feature optimises your voice quality when on calls and automatically adjusts the EQ settings when you're listening to music or want high quality sound for multi-media playback
- Enhanced Digital Signal Processing (DSP) provides more natural sounding voice
