

Jabra®

THE BEST JUST GOT BETTER

INTRODUCING THE BIZ 2400 II

The latest version of our award-winning BIZ series provides the clearest, most comfortable conversation yet.

Jabra's new BIZ™ 2400 II delivers a best-in-class audio performance, so your agents can offer a superior customer experience and faster call resolution.

- Ultra Noise-Cancelling microphone eliminates unwanted background noise (QD version, see back for details)
- Up to 40% lighter weight than competing headsets, for superior, all day comfort
- Best-in-class speakers with HD Voice and HIFI sound provide crystal clear call clarity
- Unbreakable 360° FreeSpin boom arm reduces costly downtime due to breakage
- Kevlar-reinforced cord is built contact-center tough

BETTER COMFORT MEANS BETTER PRODUCTIVITY

Large, luxury ear cushions and additional headband padding ensure your agents stay comfortable and productive through countless hours and hundreds of calls. The BIZ 2400 II is also available in mono or duo with neckband, headband and ear hook options for added flexibility and a personalized fit.

EASY INTEGRATION WITH EXISTING TELECOM SYSTEMS

No matter which deskphone or softphone you are using, the Jabra's BIZ 2400 II will seamlessly integrate into your environment. Simply purchase any connectivity cord for the device you need to connect to.

JABRA BIZ 2400II PRODUCT BENEFITS

PeakStop™

Safe sound and superior hearing protection
PeakStop technology immediately removes potentially harmful loud sounds or tones before they reach your ears and keeps the sound level within the safe range to protect your hearing

Talk in Comfort

Be kind to your ears
Assure total comfort with a wide range of styles that match your individual needs and personal fit requirements. Our light, ergonomically designed frames along with soft ear cushions, adjustable headbands and microphone boom will guarantee that your headset will be comfortable all day long.

HD Voice

High quality audio for crystal clear conversations
Enjoy high-definition sound with HD Voice and get crystal clear conversation. You get life-like, vibrant conversations where you can focus on the content and don't have to struggle to understand what the person on the other end of the line is saying.

Noise Cancelling Microphone

Reduces unwanted background noise
Noise Cancelling microphones reduce unwanted background noise and are ideal in crowded and noisy, open office environments. Ultra noise cancelling variant is available.

Air Shock Microphone

Reduce unwanted "pops" for better call quality
When the microphone is close to the mouth of the user, there is a risk of respiratory noise. To reduce it, the microphone is designed aerodynamically, and with many small holes instead of a larger hole. In addition to this, foam is included on the inside of the microphone. Overall, it reduces the penetration of air shocks to the microphone, which optimizes the call quality.

Multi-Device Connectivity (USB)

Manage all your calls from one single headset
You can purchase a variety of connectivity cords to connect your BIZ 2400 II to your smartphone or deskphone with ease, whichever device you choose to use for each call.

Jabra FreeSpin™ Boom

Reduces likelihood of breaking during adjustment
With Jabra's FreeSpin boom you can rotate your boom a full 360 degrees. This lets you adjust your boom positioning so that it's always exactly where they need it - without having to worry about breaking it.

Kevlar® Reinforced Cords

Increased toughness for enterprise-class durability
Jabra headsets with Kevlar-reinforced cords feature the same material used in anti-ballistic bullet-proof vests. This means cords that withstand more strain are more durable than alternatives - all of which lowers the total cost of ownership.
