

CAM340+

4K huddle room camera with microphone

Super sharp accurate color up to 4K

Finally the term "Like looking through glass" can be used. The CAM340+ uses high quality sensors and multi-lens glass to produce the sharpest and most accurate color ever.

Easy plug-and-play, any app

Unbox, plug-in, and connect to meetings instantly using any of your favorite applications. There are no drivers to install, and you can power the camera via a single USB cable.

*Power the camera when using the provided USB 3.0 connection. A power adapter is necessary with a USB 2.0

PLUG-N-PLAY

Flexible field of view for different room types

The CAM340+ provides the option of switching between Wide Mode of 120° FOV or Depth Mode of 94° FOV. The ultimate in video conferencing convenience, the CAM340+ gives you the freedom to collaborate anywhere and perfectly frame participants in various huddle room setups.

Thrives in tricky light conditions

No matter if you are in low light or bright light, natural or fluorescent lighting or have multiple types of lighting AVer's CAM340+ white balance and exposure will provide you with accurate color to its fullest.

Pan, tilt, zoom like 4x optical zoom camera

With our Ultra 4K CAM340+ you can zoom in up to 4x* as if it was a traditional, optical camera. Zoom in and pan around to frame the perfect picture for your attendees.

Noise cancelling mic

A high-quality uni-directional microphone built-in on top of the camera can easily pick up your conversation in your huddle room environments while it suppresses noise behind the TV.

*similar to 4x optical zoom performance when outputs 960x540. When cropping beyond sensor pixels, digital zoom applied. Pan and tilt only available when zoom in. 4K or 60 fps don't support ePTZ.
